DeVroomen Garden Products

"Celebrating 98 years and still Growing"

The DeVroomen family has owned the company and takes great pride in being a leader in the flower bulb and perennial industry is celebrating our 98th years in business. In the 1920's Grandpa Jac.th. DeVroomen started with very little and developed a successful bulb growing and exporting company.

The business grew with the emphasis on quality, on-time delivery, true to name and willingness to invest in innovation. In the 1950's his 3 sons Hugo, Ben and Dick took over the business and continued to grow. We are continuing to invest in improving our product line, uphold the quality and increase our market share. In 2014, we added the Simple Pleasure brand for our Independent Garden Center line. We further expanded with a well-established perennial and flower bulb company in Canada. With all three companies we can improve and expand our grower, landscape and independent garden center line with more products and services.

DeVroomen USA has moved into a 80,000 sq ft building in Gurnee IL, this will give us plenty of space for the growth that we are experiencing and warehouse our product at the optimal temperature. Our commitment to our business plan of development, investments, research and a flexible production has proven to be a successful model for us. Our focus is to be a long-term partner to every one of our customers and suppliers.

Should you like any more information, we would like to invite you to our website www.devroomen.com or feel free to call us at 847-395-9911. (for Canada please visit www.devroomen.ca or call 1-833-358-2852)

We Offer:

Bare Root Perennials

We offer a wide range of #1 size bare root perennials. These plants are field grown for one year to make them the perfect size for producing a one gallon pot. All of our plants come packed in quantities of 25 unless otherwise stated. This allows you to purchase several different varieties without producing far too many plants overall. Our large color labels are packed to match the count of the plant.

Please see our order form for more information. If you wish to receive tags, you must mark it on the order form.

Tubers, Corms and Bulbs

We offer a large selection of tubers, corms and bulbs especially suited for pot production. Popular items such as Dahlias, Lilies, Crocosmia and Callas, for example all make excellent plants for pots. Our Tubers and Bulbs are easy to grow and our sales team will be happy to provide more information if you require it. We offer labels for these, but please be aware we ship the number of bulbs based on how many you need per gallon pot. For example Crocosmia needs 3 corms per gallon pot so you will require less labels, so 25 labels will be sent per 75 bulbs. Check order form to see if less tags are shipped per variety.

Please see our order form for more information.

Growers at heart

Perennials

We offer a large selection of perennials, grown for us by our partner/contract growers which we have worked closely with for many years. They understand our customer's demands and our high quality expectations. We are always looking for new and improved items to add to our nursery and your perennial selections. We have first hand experience with these varieties and our experienced growers provide our sales team with up to date and relevant information on the best production techniques. Please don't hesitate to contact your sales representative for further information.

Trial Gardens

We work very closely with the growers to ensure that the best varieties are available to suit your potting requirements. We take samples from all shipments, which are then planted at one of our trial sites to ensure quality and true to name. These samples provide us with more technical and growth information. With the feedback we get from the trial sites, we can give more concise information about the products customers receive from us.

Perennial production field

Why use bare root perennials for your perennial production?

- Our bare roots will make a bigger, stronger plant in a shorter time, compared to many liners. This will directly decrease production costs and increase profitability of your perennial production.
- All our Bare Roots are quality products, true to name and proven to perform. This will minimize product losses during your production process.
- Bare Roots are stored dormant, which allows many different delivery dates of vernalized stock. This makes your production very flexible.
- All of our Bare Roots are shipped as a dormant, cold stored crown, so you can be certain the cold requirement has been met.
- Bare Roots can tolerate lower temperatures after planting than many greenhouse-produced plugs or liners. This directly leads to savings in your production process.

Why choose DeVroomen as your bare root supplier?

- Over 700 varieties of bare root perennials from Holland.
- We take the time to look for non catalog listed items or possible substitutions for new or proven varieties.
- We are the largest wholesaler of bare root Peonies in the world.
- Oldest export license into the USA and Europe (grower to grower).
- We guarantee our products to be true to name.
- Products are grown in our own nursery or by selected contract growers.
- Minimum quantity is 25 plants per variety unless otherwise stated.
- Our product manager is in close contact with our growers, to ensure the quality in the field and select the newest varieties.

Experienced, Punctual & Dependable

Everyone at our company makes sure we provide you with the best possible quality perennials. We are known for delivering healthy, true to name and true to size products. Because we take quality seriously, we are a member of the Holland Selection Foundation.

Our products are packed in a state of the art production facility in Lisse, Holland. The independent Dutch PD Inspection Service conducts inspections during each step of the process. As well as using independent inspectors, we also have our own staff to monitor the quality and packing of your plants. They use modern counting machines for packing and a professional logistical system for order picking. We have over 90 years of perennial exporting knowledge.

- healthy plants upon delivery.
- that the variety, color and size of the plants agree with what is stated in our catalog.
- tracking and tracing from grower to grower in order to improve our quality and customer service.
- customer service to fit all your needs.

BARE ROOT PERENNIALS

Size #1

The majority of bare root perennials are sold in size #1 divisions in multiples or full crates. Most of these plants are field grown for one year, making them the perfect size for producing a 1 gallon container.

Size #2

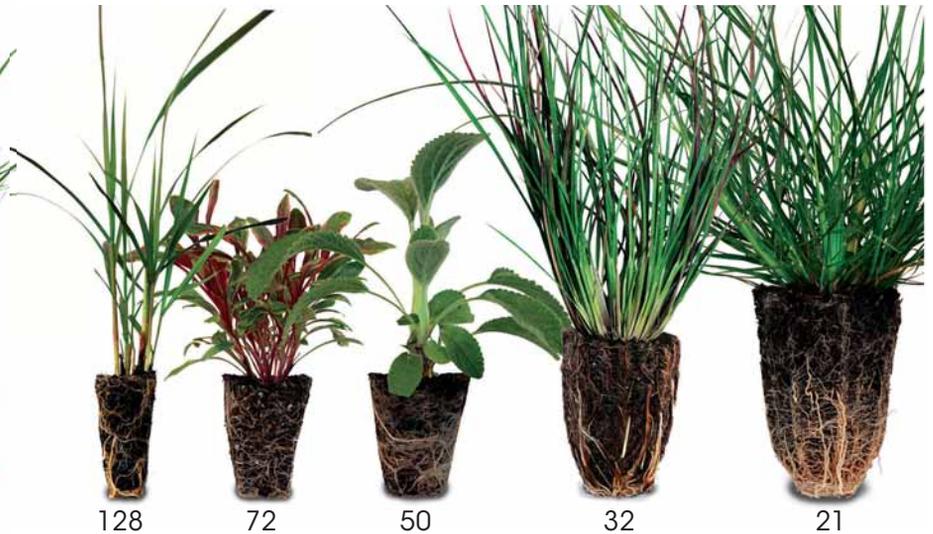

Size #2 divisions are divisions of one year plants and a good size for 1 quart (6") pots. Sold as full crates.

Plant size after 10- 12 weeks from a Size #1 bare root.

PERENNIAL PLUGS

Perennial plants and ornamental grasses are available in a wide variety of sizes from the economical 128 plug to the jumbo 21 landscape plug. All plugs are grown in standard 11" x 22" tray.

OUR PARTNERS

SUCCULENTS

We have starter size plants you can grow in your own containers. We also have retail size plants and displays in our IGC catalogs. Check out our web site for more details.

BULBS ARE PERENNIALS

We carry a large selection of bulbs that will add color to your spring perennial program. Ask for a color catalog and program to show how to plant bulbs in the fall that will fill that demand from customers for spring flower bulbs.

Attractive, deeply cut foliage.
Floriferous variety. Long lasting
flowers (June to September)

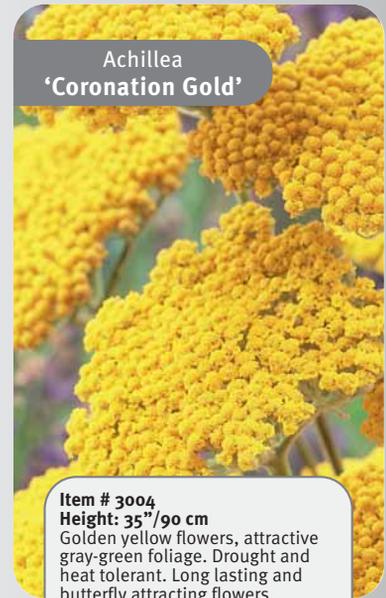

ACHILLEA

ACHILLEA

Yarrow

The flower heads are flat, compound corymbs and the main flowering period is early spring until mid summer. The plants tolerate poor, slightly acidic soils but do need well-drained soil. The flowers of most varieties make excellent fresh or dried flowers but pollen must be visible before the flowers are cut, otherwise vase life will be reduced.

Hardiness Zone 3-8

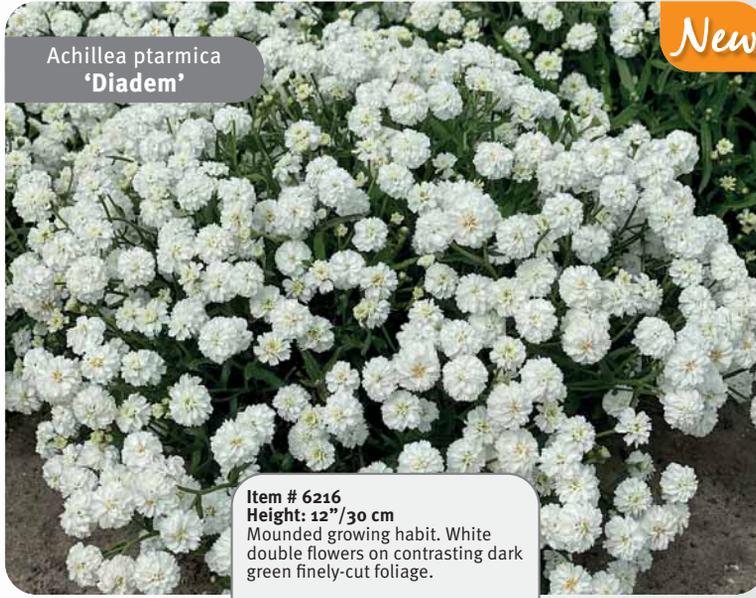

Achillea
'Coronation Gold'

Item # 3004
Height: 35"/90 cm
Golden yellow flowers, attractive
gray-green foliage. Drought and
heat tolerant. Long lasting and
butterfly attracting flowers.

Achillea millefolium
'Rainbow Ending Blue'

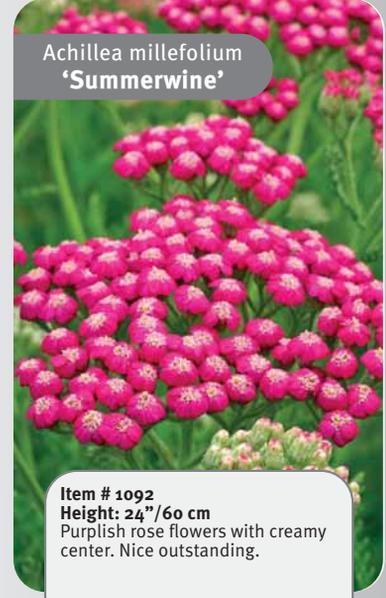

Item # 2098
Height: 24"/60 cm
Grey-green fern-like aromatic
foliage. Shades of pink flowers
ending more bluish. Deer resistant
and drought tolerant

ALCHEMILLA

ALCHEMILLA
Lady's Mantle

Clusters of small yellow flowers bloom just above the light green fan shaped foliage. Each leaf grows up to 3"/8 cm wide. A very early bloomer. Flowers of *Alchemilla mollis* can be used for dried arrangements as well as for long lasting cut flowers.

Hardiness Zone 4-7

Alchemilla mollis

Item # 3573
Height: 22"/55 cm
 Clusters of small yellow flowers, long lasting bluish-grey foliage. Easy to grow in containers, great to use for edging.

ALSTROEMERIA

ALSTROEMERIA
Peruvian Lily

Alstroemeria make excellent garden plants with a long flowering season. They require a rich, well-drained soil in full sun. They can survive some freezing temperatures, but really should be protected with a good mulch in harsh cold climates. Alstroemerias are very fragrant and can also be used for cut flowers.

Hardiness Zone 5-9

Alstroemeria majestic 'Serrant' New

Item # 8432
Height: 28"/70 cm
Dark pink flowers, flowers from early summer up to first frost.

ALLIUM

ALLIUM

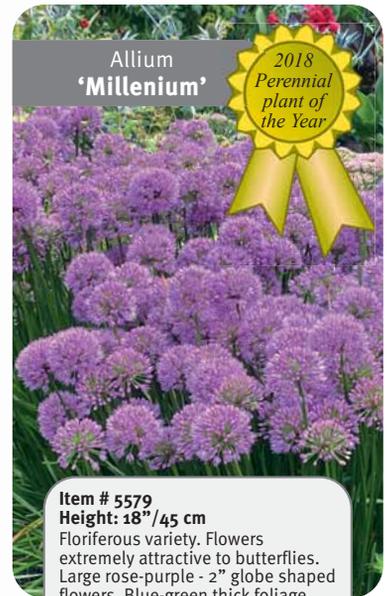

Ornamental Onion

Unlike other Allium, this variety needs to be planted in the spring. It's a rich flowering plant which does very well as a potted plant with a long flowering season and easy to care for. This variety can be used in the perennial border and in combination with other bulb varieties.

Hardiness Zone 4-7

Allium
'Millenium'

Item # 5579
Height: 18"/45 cm
Floriferous variety. Flowers extremely attractive to butterflies. Large rose-purple - 2" globe shaped flowers. Blue-green thick foliage.

Allium
'Summer Beauty'

Item # 8483
Height: 16"/40 cm
Rounded lavender-pink flowers, bluish narrow foliage.

ANCHUSA

ANCHUSA

Bugloss

Anchusa needs excellent drainage for the best results. Plant loves rich, fertile soil, but is more invasive there and tends to grow taller and flop more. Deadheading spent flowers will prolong the blooming season. Great plant for the perennial border and in natural settings.

Hardiness Zone 3-8

Anchusa azurea
'Loddon Royalist'

Item # 5276
Height: 36"/90 cm
Clump forming perennial with royal blue forget-me-not like flowers in late spring to early summer. Excellent for large container production.

ANEMONE

ANEMONE

Windflower

HELLEBORUS

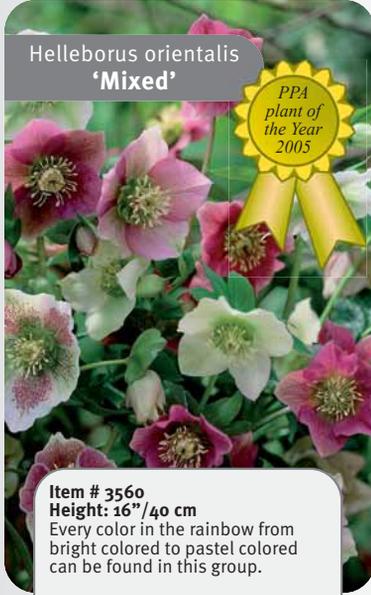

HELLEBORUS
Christmas Rose

The evergreen plant is not difficult to grow, but does require some attention. It mainly grows in the spring and fall. Due to the heat, these plants hardly grow in the summer. By planting them in early spring, you provide the best growing conditions for them. Do not fertilize during the summer months, since they are in their resting period. The Christmas Rose produces flowers from late fall until early spring. Each flower stalk bears a single 2-4"/5-10 cm bloom.
